**DILUTION RATIOS**

Chemicals must be properly diluted to work effectively. What does it mean if the ratio is 1:4? It means that 32 ounces of concentrate should be mixed with one gallon of water (there are 128 ounces in a gallon). "1:4" is another way of saying "32:128".

Some typical ratios are listed below:

Ratio	Chemical Amount	Water Amount
1:4	32 ounces	128 ounces (1 gallon)
1:5	26 ounces	128 ounces (1 gallon)
1:8	16 ounces	128 ounces (1 gallon)
1:10	13 ounces	128 ounces (1 gallon)
1:12	11 ounces	128 ounces (1 gallon)
1:20	6.5 ounces	128 ounces (1 gallon)
1:32	4 ounces	128 ounces (1 gallon)
1:64	2 ounces	128 ounces (1 gallon)
1:128	1 ounce	128 ounces (1 gallon)

**CONVERSION CHART**

1 Gallon	=	128 Ounces
1 Quart	=	32 Ounces
1 Pint	=	16 Ounces
1 Cup	=	8 Ounces
1 Ounce	=	1/8 Cup
2 Cups	=	1 Pint
2 Pints	=	1 Quart
4 Quarts	=	1 Gallon

NOTE: When mixing cleaners, you may find it helpful to fill your container with the proper amount of water, then add the concentrate and thoroughly mix the solution. If you add the water to the concentrate, you may create a large amount of foam. By adding the concentrate to the water, the amount of foaming from the concentrate is minimized.

Using Pro-Link's ChemiCenter Dilution Control Systems ensures the accurate dilution.

# ChemiCenter II™ DILUTION CONTROL SYSTEM

Maximum Performance on Demand

The ChemiCenter II dilution control system is a perfect blend of **style** and **performance**. The system provides users with dispensing options and effective chemical solutions at a **low in-use cost**. Installation and use of the dispensers and products have been designed for optimal efficiency and *ease* of use.

## 4 BUTTON CABINET B14318

The 4 Button Cabinet delivers an easy to use dilution control system. These pre-plumbed units do not require installers to connect a mess of water lines to different chemical compartments. Simply hang this unit with the included mounting template, connect your main water supply and you are on your way! The single key locking cabinet houses four chemicals which can be selected by turning a dial and switching from large container filling to a quart bottle is as easy as the touch of a button. The features of this unit are many and so are the user benefits.

**S**

## SINGLE BUTTON DISPENSER B14319

The Single Button Dispenser is designed with space efficiency in mind. This pre-plumbed dispenser includes a mounting template for easy hanging and the ability to connect multiple units together. The stainless steel hanging bracket not only provides stability for hanging the dispenser, but also for holding the selected chemicals. Upon opening, the unit can be set for quart bottle filling or large container filling.

**X**

## MULTI-PRODUCT DISPENSER B14327

With a space saving design, the Multi-Product Dispenser is designed for simple, fast and safe change over from one product to another. This pre-plumbed dispenser includes a mounting template for easy hanging. The unique design provides one-step bottle connection and removal. Pushing a bottle into the dispenser lowers, seals and engages bottle connection and one-handed removal raises and disengages the bottle.

**P**

## PORTABLE DISPENSER B14320

Flexibility is the key factor of the Portable Dispenser. Out of the box, this dispenser is ready to start filling quart bottles or large containers. After attaching the chemical and a water supply line, the one-handed operation of this unit helps make dispensing easy. A foaming accessory kit is available with this dispenser as well when chemical dwell times need to be extended on vertical surfaces.

**e-MERGE / VECTAIR V-AIR® SOLID**

- **VOC Exempt** e-Merge™ and Vectair V-Air® SOLID refills are free of any aerosols, batteries or propellants and VOC exempt. Refills are carbon neutral.
- **Sub-Micron Technology** Particles enable superior fragrance delivery, yet are sized typically below 1.0 micron. This means they are much smaller and lighter than the particles in other fragrance systems, remaining airborne for many hours.
- **Multi-Phasing** The e-Merge™ & Vectair V-Air® SOLID refill capsule is infused with high quality perfumes, then complemented by an integrated internal fragrance core. These combine and diffuse powerful key fragrance notes that are subtly different for up to 60 days.
- **Just Three Parts** A recyclable retaining clip attaches the refill to the dispenser, which is recyclable too.
- **No Liquids | No Leaks** Refills contains no liquids so won't spill, even if knocked over.
- **Neutralize & Eradicate Odors** Refills contain Airadicate™ odor neutralizer and TEG odor counteractant to help reduce and stop bad odors. Airadicate™ attaches to malodorous molecules, removing them out of the air and leaving behind just the right amount of fragrance.
- **Part of the Professional Passive Program™** Pro-Link e-Merge™ Citrus Surprise, Cucumber Peach, Apple Cinnamon and Vectair V-Air® SOLID Lavender & Geranium and Linen Breeze fragrances are part of the Professional Passive Program™, bringing together a range of passive air care products for one harmonious scent in any space.

# RESTROOM & FACILITY AIR FRESHENING SOLUTIONS

AIR CARE

### WAVE GUARD PRO™

Releases billions of optimized bacteria and more than twice the fragrance as competing urinal screens over 30 days to keep the urinal and restroom smelling fresh. The unique two-sided design eliminates installation error and installs both ways without sacrificing splash reducing performance. Long protrusions on both sides plus a hexagon mesh eliminate urine splash, cutting cleaning time. Reminder system- simply pull off the month and week tabs upon installation to remind you when to change the screen.

### TIDAL WAVE PRO™

This high end, 60-day urinal screen, contains 3 times the fragrance of its closest competition and will keep any restroom fresh. Other features include an elevated 2-sided design that virtually eliminates splash as well as date tabs along the sides so you know when to replace it. Additionally, The TIDAL WAVE PRO contains beneficial bacteria that consume odor-causing bacteria at the source.

### PRO BOWL CLIP™

Clips on the outside of any bowl. Unseen and secure, the seat goes down and stays down, locking in the clip where it will eliminate odors for 30 days! Works great on the side of the tanks too!

### EVER-AIR PRO™

Environmentally friendly - no batteries, no fans, and 100% recyclable. EVER-AIR PRO refills can be easily recycled through the closed loop recycling program available through [www.eco-refresh.com](http://www.eco-refresh.com). Freshens the air for 30 days - unique fragrances are designed for month-long performance and outperform gels, wicks, and aerosols. Easy to use, fits TC®, TimeMist®, Ecolab®, Hospesco®, Kimberly-Clark®, Vectair® and fan dispensers too. Cannot spill or break.

### FRESH-SPOT PRO™

This powerful air freshener works well in ladies restrooms, lobbies, conference rooms, nursing stations, offices, kitchens, bathrooms, and more. It contains 50-100x more fragrance than a standard toilet rimstick and consistently releases pleasant fragrance. 12 holders are included per case. Additional holders can be ordered if needed.

### THE BREEZE™

Each refill cover comes with one replacement battery. Same performance day 1 through 30. Computer chip and program automatically run fan only when needed. THE BREEZE refills are 100% recyclable. Closed loop recycling program available at [www.eco-refresh.com](http://www.eco-refresh.com). Lights and audible reminder let you know when to replace the cover.

### SUPER SORB PRO™

Powerful absorbent: super concentrated product absorbs 60 times its weight immediately and up to 400 times its weight after 2 minutes. Formulated with a biodegradable cellulose base. Easy to use: soaks up vomit, blood, urine and other spills on hard surfaces.

Paramount Skin Care system is boldly designed and engineered for the highest reliability and easy servicing. This system offers both touch-free and manual systems to meet any facility's needs. Select the size option that offers optimal use in your environment; the high-capacity dispensers accommodate fewer change-outs in high traffic areas, while the small footprint dispensers fit compact spaces. At-a-glance refill status monitoring is easy with the dispenser's large sight window. FlexLock adds the ability to convert to a locking or non-locking cabinet by removing the key inside - whenever you want. All dispensers are ADA compliant.

### A. All Surface Cleaning & Deodorizing Wipes

Safely clean and deodorize any surface, anywhere. Each floral fragranced wipe is premoistened with a mild combination of quaternary ingredients that clean and deodorize on contact. Great for fast cleaning of metals, vinyl, tiles, ceramic, granite, marble, Formica and appliances. Ideal for use in health/athletic clubs, grocery stores, schools, restaurants, hospitals, nursing homes, offices, churches, caterers, and retail stores.

Item #	Description	Qty.
WG001	8" x 10", 800 Wipes Per Bag	2 Bags/cs.

### B. Tough Job Wipes

Water-based hand and surface cleaner cuts through tar, grease, wax, ink, paint, lubricants and adhesives. Great for cleaning objects, surfaces and hands - practically every tough job. Loosens and dissolves tough grease, grime and oils from hands, surfaces, equipment and tools, yet leaves no residue. These citrus scented wipes are industrial strength, but gentle on skin. On-the-job hand cleaning is a snap, making cleaning effortless and saving time by eliminating trips to washrooms. Fortified with emollient and natural oil, Tough Job Wipes help prevent cracked or dry hands.

Item #	Description	Qty.
WG002	9 1/2" x 12", 70 Wipes Per Tub	6 Tubs/cs.

### C. Stainless Steel Wipes

Removes stains and smudges quickly and effortlessly while cleaning and polishing the finish. Stainless Steel Wipes create a protective shield on the surface protecting against watermarks and corrosion for a longer life. Use on dishwashers, refrigerators, freezers, elevators, escalators, doors, trims and water fountains.

Item #	Description	Qty.
WG010	9 1/2" x 12", 40 Wipes Per Tub	6 Tubs/cs.

### D. Graffiti Wipes

Combats graffiti and adhesive cleanup on a variety of hard surfaces, including bathroom partitions, phone booths, lamp posts, bus stops and seats. Powerful cleaning formula removes most paints, including enamel, cutting through ink, grease, wax and adhesives. Graffiti wipes do not contain amyl acetate or methylene chloride, making towels safer to handle. These wipes are safe to use as directed, as they are non-toxic, non-flammable and use a non-hazardous formulation. Abrasive yet non-scratching fabric aids in cleaning. Towels stay moist to provide greater usage and longer shelf life.

Item #	Description	Qty.
WG011	9 1/2" x 12", 40 Wipes Per Tub	6 Tubs/cs.

### E. Disinfectant Wipes

Quick acting wipes kill 99.9% of Staph aureus, E. coli, Klebsiella pneumoniae and Listeria monocytogenes bacteria in 15 seconds. Effectively cleans, disinfects, and deodorizes any hard, non-porous surface. Each premoistened wipe has a formulation protecting hard surfaces from germs. Ideal for use in hospitals and healthcare settings, clinics, doctor's offices, home health care, emergency rooms, nursing homes, dentist offices, correctional facilities, health clubs, schools, animal kennels, veterinary clinics, gyms and more. Disinfectant Wipes are lemon scented for that just-cleaned smell. They are Phenol-free, alcohol-free, bleach-free and non-staining, making them safer to use. EPA registered.

Item #	Description	Qty.
WD001	6" x 10", 60 Wipes Per Tub	6 Tubs/cs.

## TOTAL WIPING SOLUTIONS:

No matter the application, we have a best-in-class solution

#### General Purpose Wipers

TaskBrand® Wipers feature a choice of substrates to meet virtually all applications and budgets.

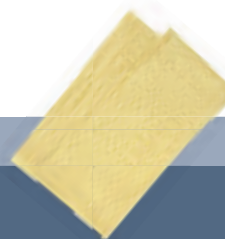

- Rag replacement
- Solvent applications
- General cleaning
- Personal care
- And more

#### Foodservice Wipers

Saniworks® Foodservice Towels save 40% over terry or rentals. Specially designed for wet strength, cleaning power, durability and sanitizer compatibility.

- Highly absorbent
- More sanitary than bar mops and linen towels
- Multiple colors for coding to avoid cross-contamination

#### Woven Wiping Cloths

Are you looking for an environmentally friendly, reusable wiping solution? HOSPECO offers a wide assortment of microfiber cleaning cloths along with new and reclaimed rags. Consider these features when choosing:

- Washable and reusable
- Durable, low lint and absorbent
- Can be used for multiple applications
- Microworks® microfiber cleans more effectively, reducing labor and chemical costs

#### Specialty Wipers

Specialty Wipers for when a task requires a very specific wiping need. HOSPECO offers one of the broadest lines of disposable wipers in the industry. Compare and consider these features when choosing:

- Reduces cleaning/disinfecting costs
- Durable, low lint and absorbent
- Application specific wiper delivery systems

## CHOOSING THE RIGHT WIPER

Choosing the right wiper means selecting the best product for the task at the lowest cost-in-use. Consider these factors:

### WIPER GRADE

Options range from rag replacement to high performance virtually-lint-free towels to general purpose clean-up wipes.

### WIPER SIZE

To control cost and reduce waste, choose an appropriate wiper size: small sheets for delicate tasks and large towels for the biggest jobs.

### DISPENSING

For high capacity areas and lowest cost per sheet, choose a Jumbo Roll. To best manage usage and reduce waste, select a Pop-up Box, Tote Box or Two-Pak™ that dispenses one wiper at a time. The best packaging option for your work environment is one that keeps the product clean and conveniently ready to use.

**A. Double Bucket System**

This system is ideal for high capacity professional janitorial mopping. It keeps water and chemicals fresh by wringing contaminated water into the rinse bucket, keeping floors cleaner and reducing cross contamination. The angled mop press handle provides superior leverage so mops are properly wrung every time - saving water, time, and labor. 360° casters for excellent range of motion and maneuverability, plus a pivoting trolley handle that reverses to easily turn the cart in different directions. For use with Pro-Link's tab mops.

Item #	Description	Qty.
MDBS25	Double Bucket System, 5 Gallon Bucket Color Options: Orange, Yellow, Blue, Green	1/ea.

**B. Microfiber Charging Systems**

Ideal for any facility concerned about cross contamination; the simplest and most effective way to use a fresh mop in each room or area - virtually eliminating the risk of cross contamination from mopping. Mops are pre-loaded with the proper amount of cleaning solution, minimizing chemical and water waste. Waterproof and leak proof covers ensure pads will not dry out and lose their chemical charge. Both style buckets are designed to fit in the Charging System Trolley and on most standard custodian carts. Standard microfiber charging buckets holds up to 20 pads. The premium bucket adds a sieve - providing both charging and wringing capabilities. It also offers removable casters for easy maneuvering or placing on a trolley cart.

**MOPPING THE GREEN WAY!**

Performance, durability and a cleaner, safer, healthier environment. Mops can be environmentally responsible. Pro-Link's EcoSupreme, along with many Pro-Link mops, are made from post-consumer content (recycled materials) - and that includes plastics from soda bottles. New blends help save energy - dry in half the time of traditional mops. Help conserve our natural resources. Start mopping the green way.

**A. EcoSupreme Wet Mops**

EcoSupreme wet mops are made from recycled materials including 30% from soda bottles and other consumer plastics, such as toys, dishware, etc. Its unique blend picks up and holds more moisture than traditional blend mops, providing excellent performance and efficiency. Synthetic Blend of 76% recycled material. Dries in half the time of regular mops.

**SuperSkins Sized-to-Fit Liners**

These container-matched liners are a great choice for environmental source reduction - by eliminating excess film, less plastic waste goes into incinerators or landfills. Just as important, these liners save you time and money by putting an end to troublesome bag tie-off, wasteful liner overhang and costly double bagging.

**Environmental Concerns**

Help reduce the amount of plastic used, and ultimately thrown away, by selecting the right size and gauge of liner for the job and by using liners with recycled content, such as our ThickSkins™ Recycled liners.

**The right size liner** is important for environmental reasons as well as for performance and costs savings:

- A liner that is too large wastes plastic and your budget
- A liner that is too small increases labor costs

**Gauge**, the thickness of the liner, is also a key aspect to an environmentally sound program:

- A liner that is too thick for the application wastes plastic - not to mention money
- One too thin increases the risk of bag failure and can lead to unnecessary double bagging

**A. ThickSkins™ Linear Low-Density Coreless Roll Liners**

High quality, blended resins with up to 60% reprocessed LLDPE content, great when you need an affordable, no-nonsense option. Black liners one mil and greater meet or exceed EPA standards for post-consumer waste content. Other sizes/gauges/colors available.

**Calculating the Right Size**

- Bag width should be 1/2 of the outer circumference of the container.
- Bag length should be the height of the container + 1/2 of the diameter of the container bottom + 3 inches for overhang. For rectangular containers, use 1/2 of the diagonal measurement.

**Down-Gauging**

If you convert from a linear low to a high-density liner, a significantly thinner gauge can be used because of the strength of high-density.

- If the liner is 33" or less in width, down-gauge by 50%.
- If the liner is greater than 33" in width, down-gauge by 35%.
- To convert the MIL to MIC, multiply by 25.4.

**The Right Bag for the Right Application**

**Type of Resin Material**

Select the right type based on the application and the kind of trash being put into the bag. Using the right type of liner will provide the best results at the lowest cost.

**High-Density**

High-density liners are the most widely used and are typically the most cost-effective option due to the strength of high-density resin. High-density liners also provide an excellent moisture and vapor barrier. They are perfect for heavy garbage that does not have sharp edges.

**Linear Low-Density**

Provides maximum puncture and tear resistance. Ideally suited for trash with sharp or jagged edges. These bags will stretch before they break!

**B. ValSkins™ Nominal Gauge and Size HDPE Liners**

A budget-friendly liner for heavy, wet, non-sharp waste.

## CREATE A SUSTAINABLE GREEN ENVIRONMENT CHOOSE PRO-LINK GREEN!

### DO GREEN PRODUCTS REALLY WORK?

Yes! Today's green products are both effective and cost competitive. But to reap the most benefits and significantly improve your maintenance operation from a health, environmental and cost standpoint, you need to add effective cleaning techniques and training to the right green products. Pro-Link can help get you there.

### WELCOME TO PRO-LINK GREEN

*Pro-Link Green is not simply a line of products.* It is a complete program designed to assist you in realizing the enormous benefits that are available with green cleaning. We want to help you take full advantage of the health benefits, productivity, reduced liability, cost savings and improved community relations this program can generate. Green cleaning means products and processes that are not only as effective at cleaning as traditional products, but are also more cost effective when evaluated over the length of the maintenance cycle.

### THE PRO-LINK GREEN PROGRAM

**Pro-Link Green is made up of four key components:**

- **Assessment:** First, we'll understand the needs of your facility and any special requirements of building occupants, such as small children, pregnant women and those with health conditions.
- **Advice:** We'll determine a green cleaning program that makes sense based on your needs.
- **Training:** Proper training of your staff is critical to ensure a successful implementation, and we can help with this too.
- **Products:** A full spectrum of products for every part of your operation – chemicals and cleaners, paper, equipment, entrance mats, microfiber systems, can liners and other tools and supplies.

- Microfiber System
- Aerosols/Air Care
- Automatic Faucets & Flush Valves
- Biobased Products
- Buckets & Wringers
- Cleaning Chemicals (Carpet, Floor, Restroom)
- Dilution Control System & Cleaners
- Floor Finish/Stripper
- Liners
- Matting
- Microfiber Cloths & Dusters
- Microfiber Mops
- Mops
- Pads
- Paper & Dispensers
- Recycling Containers
- Sanitizers (Hand & Wipes)
- Soaps & Dispensers
- Transport Cleaning System
- Vacuum Bags & Panel Filters

### THE BENEFITS OF THE PRO-LINK APPROACH TO GREEN CLEANING ARE NUMEROUS:

- Improve the productivity and morale of building occupants.
- Improve the health of the cleaning staff and building occupants, helping to reduce sick days.
- Gain recognition in your community for reducing resource usage and pollution.
- Reduce liability from worker safety issues.
- Earn points towards LEED certification.
- Create satisfaction for yourself, the cleaning staff and the building's occupants because you are helping to make your facility and your community a better place.
- Simplify your purchasing function by getting all your green cleaning supplies from one source.

### RE-THINKING CLEAN

Pro-Link has been committed to helping our customers keep things clean since 1984. And today, clean means clean, shiny, and germ-free, plus being green! And being green means safer to use, healthier for building inhabitants, better for the environment and cost competitive.

## THE LOWRIDER - High Speed Propane Burnisher

**Productivity: UP TO 33,000 SQ. FT./HR.**

American made high productivity propane burnisher with rugged, patent-pending solid steel body, advanced polymer composite pad driver and adjustable back wheels for controlled pad pressure; powered by 18hp 603cc engine with low oil shut down and safety regulator fuel system.

**Lowest emissions in the industry.**

**Green Certifications: GS-42, CARB, CE, EPA, and LEED**

152-13-SD-INSTALL	Emissions Auto Shut-Off

## THE SIDEWINDER - Propane Powered Floor Stripper

**Productivity: UP TO 15,000 SQ. FT./HR.**

American made high productivity propane stripper strips 7-10 coats of floor finish in a single pass at a slow walk. Rugged solid steel construction with detachable transport wheel, gimbal planetary brush drive, precision German centrifugal clutch; powered by 18hp 603cc engine with low oil shut down and safety regulator fuel system. Strips 3x faster than battery machines and 10x faster than corded electrics.

**Lowest emissions in the industry.**

**Green Certifications: GS-42, CARB, CE, EPA, and LEED**

## THE LIQUIDATOR & THE GUZZLER - Slurry Control Machines

**Productivity: Liquidator applies solution up to 50,000 SQ. FT./HR.**

**Productivity: Guzzler picks up spent slurry up to 30,000 SQ. FT./HR.**

American made high productivity machines allow Sidewinder system to operate at maximum speed. The Liquidator utilizes precise gravity feed system to evenly spread stripper while eliminating splash on baseboards and under gondolas. The Guzzler picks up spent strip solution quickly and easily without cords, batteries, or motors. Keep your scrubber out of stripper and keep it clean. Guzzler costs less to buy than a 32" scrubber repair bill. Tough rotomolded bodies designed to last for decades. Using a Sidewinder without these machines drastically reduces its productivity.

Item #	Description
012-52	Liquidator (36 gal. Capacity)
015-62	Guzzler (36 gal. Capacity)

## THE GRAND FINALE - Finish Applicator

**Productivity: UP TO 35,000 SQ. FT./HR.**

American made high productivity finish applicator applies chemicals quickly and precisely with battery powered pump, machined flow manifold and precision flow controller dial. Highly controlled flow reduces chemical usage by up to 30% and labor by 70%. 4x faster than backpack applicator and 10x faster than mop and bucket.

Item #	Description
050-1	Grand Finale 24" or 36" Head assembly

## THE REFRESHER - Concrete & Terrazzo Restoration System

**Productivity: UP TO 15,000 SQ. FT./HR.**

**STRIPPING AND 10,000 SQ. FT./HR.**

**REFRESHING.** American made high productivity propane multipurpose machine for stripping VCT tile, polishing concrete, refreshing terrazzo and sanding wood floors; powered by 18hp 603cc engine with low oil shut down and safety regulator fuel system. Rugged, gimbal planetary-driven system is self-leveling to work smoothly on uneven floors. Synchronous positive drive belt with German centrifugal clutch, metal synchronous drive pulleys, solid-lube bearings and sealed drive unit ensure years of trouble-free usage. Can be used wet or dry and includes 11-gauge extra-heavy transport wheel. Compatible with 3" puck-style and 10" pad diamonds. **Lowest emissions in the industry.**

**Green Certifications: GS-42, CARB, CE, EPA, and LEED**

## EQUIPMENT SERVICE & REPAIRS

Anyone who owns a piece of cleaning equipment – even if it's only a vacuum – knows that it will require some repairs or preventative maintenance. When you need help with your equipment, call us at the location listed on the back cover. You'll get the service you need from our friendly and local equipment service experts.

**Cost Control:**

We are experts in repairing and maintaining powered cleaning equipment. Improve productivity, control costs and lengthen the life of your equipment by working with us.

**Professionally Trained Technicians:**

Our professionally trained equipment service technicians are specialists in maintaining and repairing powered cleaning equipment and are able to work on most nationally branded machines.

**Preventative Maintenance:**

When cleaning equipment breaks down, it costs time and money. Parts and labor are a direct expense, workers often are idle, overtime expenses can be incurred and cleaning schedules are jeopardized.

Regular maintenance helps keep small problems from becoming big problems. Contact us today to set up a preventative maintenance program.

**Site Repairs:**

Many locations are equipped to make repairs at your facility. Additionally, in some cases, we will pick up and deliver machines for off-site repair. Contact us to learn how we can make equipment maintenance and repair easy for you.

**Value-Added Services:**

Contact us for information on rental equipment, centralized service records, planned maintenance packages and emergency service options.

**COMPLETE LINE - FLOOR PADS**

**Matting Helps Keep The Building Green By:**

1. Stopping soil and water at the entrance.
2. Containing soil and water for removal at a convenient time.
3. Minimizing tracking of contained soil and water into the building.
4. Providing a safe surface for traffic.

The U.S. Green Building Council's LEED rating system includes the use & maintenance of entrance systems and mats that prevent particles from entering the building. Recommendations include a minimum of 10-15 ft. of quality matting products at entrances to prevent contaminants from entering a building.

**Help us preserve the environment!**

EcoPlus and EcoStep surfaces are made from 100% recycled post-consumer products. This means fewer bottles and tires will enter landfills.

Mat Recycled Content  
 1 sq. ft. = 4 bottles

# THE PERFECT LOW MOISTURE CLEANING METHOD FOR HEAVY TRAFFIC AREAS

- Fast, Easy Cleaning
- Dries Immediately
- NO "Soil Wicking"
- NO Carpet Downtime

### Dri-Way+™ Dry Carpet Cleaning Compound

Is a great way to keep carpet looking fresh and clean. **Dri-Way+™** can be used as an interim cleaning method between wet restorative cleanings or can be used as a stand-alone program, for facilities that prefer to use low moisture methods. Carpeting subjected to heavy traffic can be kept looking good year-round without using methods requiring extensive drying time and labor costs.

- + Completely biodegradable, over 80% naturally derived
- + Requires less dwell time, and less mechanical action
- + Contains encapsulating technology (Carpets stay cleaner longer)
- + Cleans without excess residue
- + Anti-soiling properties
- + Contains hydrogen peroxide (For an extra cleaning boost)
